## Interest Based Advertising

Interest-based advertising is advertising that is targeted to you based on a "online profile" created indirectly by your web browsing and over time and across websites or apps, including those of third parties. Our advertising practices also include the creation and use of "audience segments." You have the option to restrict the use of information for interest-based advertising and to opt-out of receiving interest-based ads. Depending on where you access our website from, you may also be asked to consent to our use of cookies, including advertising cookies. **All users may control or delete any type of cookie or manage your data privacy by viewing and modifying your browser settings and/or deleting cookies from**

**your browser history. These settings vary based on your browser.** Additional information on Audience Segments, interest- based advertising and how to opt-out is found below.

1. *Audience Segments:* We disclose various types of information for purposes of interest-based advertising, including for third party, interest-based advertising. This processing includes the use of Personal Data to create de-identified audience segments. These audience segments are then made available for interest-based advertising, including for third party advertising, on OnLogic online properties. The audience segments are based on your “online profile” of website visits, online and offline purchasing behaviors, interaction with our ads or marketing emails, similar types of information, and in some cases, data from third parties. The segments, prior to being used, are de-identified so that they will not identify you personally. In some instances, we may use a third party to match de-identified segments to targeting IDs that are then used on third party sites.
2. *Interest-Based Advertising Opt Outs, Choices, and Control:* For all of the interest-based advertising described above, including segments, you have the choice to not have your data used to target and serve you interest-based advertising-including third party advertising-regardless of where such ads might be served. These opt-outs require that strictly necessary cookies are not blocked by the settings in your web browser. You may use a number of tools, sites and other resources to identify how your Personal Data is being used for interest-based advertising and opt-out in order to control the use and processing of your data. For general information and resources, these include [Digital Advertising Alliance](#) (US), [Canadian Digital Advertising Alliance](#) (Canada), [European Digital Advertising Alliance](#) (EU). If you live in the United States, Canada, or the European Union, you can visit the following sites/Opt-out tools to find a convenient place to opt-out of interest-based advertising with participating entities for each region: [Ad Choices](#) (US), [Your Ad Choices](#)(Canada), or [Your Online Choices](#) (EU). You may also opt out of third party vendors’ use of cookies by visiting the [Network Advertising Initiative opt-out page](#). Visitors can opt-out of Google Analytics for Display Advertising and customize Google Display Network ads using the [Ads Preferences Manager](#).

These websites also provide detailed information about how interest-based advertising works. Opting out does not mean that you will no longer receive advertising from us, or when you use the Internet. It just means that the data collected from our websites will not be used for interest-based advertising and that the advertising you see displayed on websites will not be customized to your interests.
